GAS LEAK DETECTOR FOR CO AND CO+CH₄

Model CD 97 and CD 99

Product informations

CD 97 e **CD 99**, the gas detectors that uses catalytic sensors, have excellent gas sensitivity and at the same time guarantee high selectivity to interferences normally present in domestic environments and often the cause of false alarms (cooking fumes, wines, alcohol, detergents, ammonia, etc..); their high performance and the compliance of the *LINEASICURA* line with the standard, guarantees the reliability of these products. The lineasicura models are equipped with fault, system fault and alarm fault light signals and a built-in buzzer.
