HYDRABLUE PUMP

Dosing anti-scale pump with liquid anticorrosive

Product informations

The hydrodynamics metering pump **HydraBLUE** is a device for domestic use in drinking water treatment that protects systems from scale and corrosion. The pump is able to proportionally dose the liquid mixture, which creates a microscopic and antifouling film on the pipes. **HydraBLUE** is available in two versions: vertical, ideal for applications in small spaces, and with rotatable connections.

The liquid anticorrosive is a balanced solution of polyphosphate salts that prevents scaling in domestic plumbing systems and is also effective for the remediation of encrusted systems. The product complies with current EC regulations for drinking water. The product is not dangerous, nevertheless:

- it is necessary to avoid contact with skin
- in case of contact with eyes, rinse immediately with plenty of water and seek medical advice
- wear suitable gloves for protection

Available with template and rotatable connections, 1/2" or 3/4" diameter.

Technical Features

MAXIMUM WORKING PRESSURE	6 BAR
MIN. WORKING PRESSURE	1,6 BAR
MAXIMUM WORKING TEMPERATURE	50°C

HYDRABLU PUMP

FLOW RATE	• 300 - 1600 L/H (SKU 71776 - 70076) • 300 - 2000 L/H (SKU 71775 - 70075)
DOSAGE	2,4 PPM/M ³
MATERIALS	• PUMP BODY: FOOD GRADE ACETAL • TANK: FOOD GRADE POLYETHYLENE • FITTINGS: BRASS • GASKETS: NBR RUBBER
CONNECTIONS	• 1/2" FF - SKU 71775 • 3/4" FF - SKU 71776 • 1/2" FF WITH TEMPLATE - SKU 70075 • 3/4" FF WITH TEMPLATE - SKU 70076
DIMENSIONS	• Ø 105 X H 180 MM (SKU 71775 - 71776) • Ø 105 X H 220 MM (SKU 70076 - 70075)

SKU	MODEL	PRICE
00000070075	HYDRABLU PUMP - 1/2" FF WITH TEMPLATE	€130.85 VAT EXCLUDED
00000070076	HYDRABLU PUMP - 3/4" FF WITH TEMPLATE	€173.7 VAT EXCLUDED
00000071775	HYDRABLU PUMP - 1/2" FF	€117.55 VAT EXCLUDED
00000071776	HYDRABLU PUMP - 3/4" FF	€153.85 VAT EXCLUDED
