

JET PACK

Jet Pack Series

Product informations

Jet Pack, electric pressure washer ideal for complete, independent cleaning of a small HVAC unit. Thanks to its compact design and the presence of back straps, it allows good mobility during use and free hands to reach difficult places (such as the attic, roof, etc.).

Product features

- two different operating pressures can be selected (5/10 bar)
- equipped with an impurity filter in the tank lid
- ergonomic backrest for effective weight distribution
- padded back straps for extra comfort
- 4 accessories included (*extension lance, adjustable multi-purpose nozzle, pin nozzle and dispensing gun*)

COMPONENTS	
1	TANK COVER
2	FILTER
3	WATER TANK
4	STORAGE HOOK
5	OPERATING METHOD SELECTOR (I O II)
6	WATER OUTLET PIPE
