## LOW PRESSURE REGULATOR

Model with safety relief valve incorporated, flow rate 10 kg/h

### Product informations

Low pressure regulator with safety relief valve incorporated, designed to make the gas pressure at the outlet of a tank suitable for the downstream user.

### Technical Features

|                              |                                                                                                                                    |
|------------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| <b>TYPES OF GAS</b>          | LPG                                                                                                                                |
| <b>FLOW RATE</b>             | 10 KG/H                                                                                                                            |
| <b>OPERATING TEMPERATURE</b> | - 20°C ÷ + 50°C                                                                                                                    |
| <b>INLET PRESSURE</b>        | 0,5 ÷ 4 BAR                                                                                                                        |
| <b>OUTLET PRESSURE</b>       | 22 - 50 MBAR                                                                                                                       |
| <b>CONNECTIONS</b>           | <ul style="list-style-type: none"> <li>• IN 1/4" F - OUT 1/2" F (SKU E820)</li> <li>• IN 1/2" F - OUT 1/2" F (SKU E821)</li> </ul> |

| SKU         | MODEL                                                             | PRICE              |
