

## T-TOTALFLEX

Plastic polymer flue system

### Product informations

**T-TotalFlex** is the flue gas exhaust system in completely flexible plastic polymer, without solution of continuity; in fact, the system provides a single and unique joint sleeve with which it is possible to manage three different combinations: rigid-flex, flex-flex and flex-rigid. Ideal for evacuating fumes from the combustion of condensing boilers and kitchen vapors, it must always be placed in a technical cavity/technical loop or inside the thermal power plant.

### Product features

- made in diameters: Ø 50 mm - Ø 60 mm - Ø 80 mm
- composed of modular elements with circular section
- matt white finish RAL 9010
- each roll is equipped with 6 gaskets
- all corrugated, without pre-finishing

### Technical Features

|                               |                          |
|-------------------------------|--------------------------|
| <b>DESIGNATION</b>            | T 120 H1 W 2 O00 LI E U0 |
| <b>TYPE OF MATERIAL</b>       | SELF-EXTINGUISHING PPS   |
| <b>RESISTANCE TO PRESSURE</b> | WITH EPDM GASKETS        |

**T-TotalFlex**

|                                          |                                                            |
|------------------------------------------|------------------------------------------------------------|
| <b>APPLICATION RANGE</b>                 | CONDENSING BOILERS AND COOKING STEAM EXHAUST               |
| <b>SUITABLE FUELS</b>                    | METHANE GAS                                                |
| <b>OPERATING TEMPERATURE</b>             | CONTINUOUS UP TO 120°C WET UNDER PRESSURE WITH EPDM GASKET |
| <b>REACTION TO FIRE</b>                  | CLASS "E" (ACCORDING TO EN 13501-1)                        |
| <b>THICKNESS</b>                         | 1,5 MM                                                     |
| <b>DEGREE OF RESISTANCE TO CORROSION</b> | TYPE 2                                                     |

| <b>SKU</b> | <b>D</b> | <b>ROLL LENGTH</b> |
|------------|----------|--------------------|
| 51421      | Ø 50 MM  | 30 M               |
| 51422      | Ø 60 MM  | 30 M               |
| 51423      | Ø 80 MM  | 30 M               |

| <b>SKU</b>  | <b>MODEL</b>                   | <b>PRICE</b>         |
|-------------|--------------------------------|----------------------|
| 00000051421 | FLEXIBLE PIPE - Ø 50 MM - 30 M | €239.55 VAT EXCLUDED |
| 00000051422 | FLEXIBLE PIPE - Ø 60 MM - 30 M | €240.85 VAT EXCLUDED |
| 00000051423 | FLEXIBLE PIPE - Ø 80 MM - 30 M | €233.85 VAT EXCLUDED |
